PROJECTS

Pranjal Pathashala

Web application for managing and distributing study materials and quizzes.

- Google Forms integration for live quizzes and admissions
- Admin dashboard for uploading study links & managing content
- Progressive Web App (PWA) support for installable experience
- Built using React.js and Tailwind CSS.

Project Timer

Built a desktop timer & stopwatch app with transparent UI

- Developed using React + Tailwind, first with Electron.
- Migrated to Tauri, reducing app size to just 8MB with faster performance.
- Features: glass-like UI, keyboard shortcuts, draggable window, always on top.
- Packaged and released a Windows installer via GitHub Releases.

Code Chronicles

A secure web app for conducting coding quizzes with live code execution, question navigation, and cheating prevention.

- Real-time code editor with multi-language support (Judge0 API)
- Timer-based auto submission
- Anti-cheating: blocks tab/app switch & inspect tools
- React is used in frontend and Express and MongoDB as Backend and Database.

SKILLS

HTML CSS JS React Tailwind CSS TypeScript GSAP ScrollTrigger Git/Github
Figma Adobe Photoshop Adobe Premiere Pro Adobe After Effects Canva Java Wordpress

EXPERIENCE

Software Developer (Caresoft Inc.)

Present

- Developed and maintained enterprise performance management solutions using Oracle Hyperion tools, optimizing financial planning, reporting, and data integration processes to improve system efficiency and business decision-making.

Frontend Developer Intern (TFP Technology)

2025

- Assisted in developing and maintaining responsive user interfaces using modern frontend technologies to enhance user experience and website performance.

Public Relation Officer (Student Council - Core Committee)

2024-2025

- Managed social media accounts, creating engaging content to enhance online engagement and visibility.

Graphics Designer Intern (Satna Incubation Center)
